

FUTURA TOOLKIT

A toolkit for creative professionals to capture value in projects

This toolkit originates from the scientific research project FuturaA, a collaboration between TU Delft, Radboud University Nijmegen and the Royal Institute of Dutch Architects (BNA). The project has been financed by the Netherlands Organisation for Scientific Research (NWO) and a consortium of business partners. More information and inspirational material are available in the futura book 'Future Roles for Architects - an academic design guide' (2018) via: <https://books.bk.tudelft.nl/>
